Take-Home Assignment

Document set and sample questions

About the document set

- 16 PDF documents from a fictitious bank, **Meridian Trust Bank Ltd.**, in English and Hindi (Devanagari script). All names, numbers and contact details are invented for this assessment.
- The documents are deliberately realistic. They include tables, documents that revise or supersede earlier documents, and documents that may not extract cleanly with a standard PDF text extractor. Handling these cases is part of the task.
- Questions may be asked in English, in Hindi (Devanagari) or in romanised Hindi. Answer in the language and script of the question where possible.
- Every answer must cite its source document (and section where possible). If the documents do not contain the answer, the system must say so instead of guessing.
